

# Allocate, Diversify and Optimize

With

## **Invesco India Multi Asset Allocation Fund**

(An open ended scheme investing in Equity, Debt, Gold ETFs / Silver ETFs)

**NFO Period:  
27 Nov - 11 Dec, 2024**

**This product is suitable for investors who are seeking\*:**

- capital appreciation/income over long term
- investment in diversified portfolio of instruments across multiple asset classes

**\*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.**

### **SCHEME RISKOMETER**

Investors understand that their principal will be at Very High Risk

### **BENCHMARK RISKOMETER**

Benchmark riskometer is at Very High Risk

As per AMFI Tier 1 Benchmark i.e. Nifty 200 TRI (60%) + CRISIL 10 year Gilt Index (30%) + Domestic Price of Gold (5%) + Domestic Price of Silver (5%)

Note: The product labelling assigned during the New Fund Offer (NFO) is based on internal assessment of the scheme characteristics or model portfolio and the same may vary post NFO when the actual investments are made.

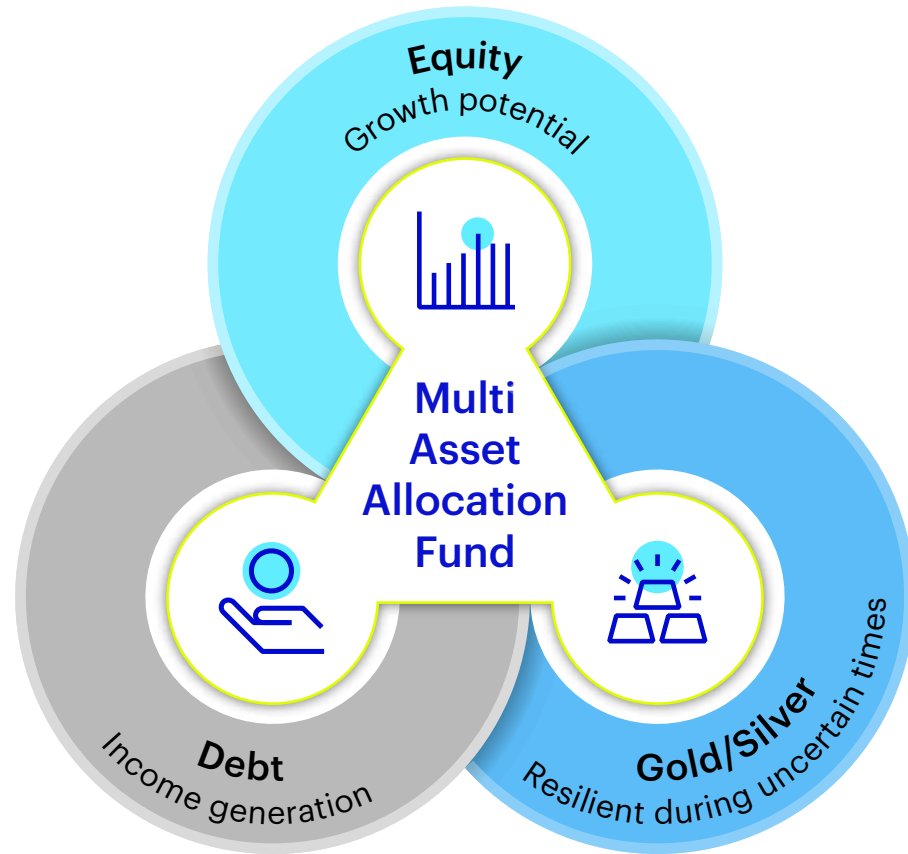

**A winning team needs  
people with  
complementary skills**

## Invesco Mutual Fund

**A well rounded portfolio too needs asset classes with complementary traits.**

As no single asset class can deliver in all types of market conditions, choose **Multi Asset Allocation Funds** that pick the right mix of assets to capture opportunities.

## Performance of asset classes varies during different time frame...

## Low correlation among asset classes provides diversification

### Daily Returns Correlation between asset classes

(From October 31, 2019 to October 31, 2024)

Asset Class	Domestic Equity	Overseas Equity	Debt	Gold	Silver
Domestic Equity	1.00				
Overseas Equity	0.20	1.00			
Debt	0.04	-0.09	1.00		
Gold	0.01	0.05	0.08	1.00	
Silver	0.13	0.07	0.05	0.82	1.00

**Past performance may or may not be sustained in future.**

Source: Morningstar, Bloomberg. Data as on October 31, 2024. Domestic Equity is represented by Nifty 200 TRI, Overseas Equity is represented by INR returns of S&P 500 TR, Debt by CRISIL 10 year Gilt index, Gold by MCX spot gold prices and Silver by MCX spot silver prices. Correlation measures how two variables move in relation to each other and can range from +1 (perfect positive correlation) to -1 (perfect negative correlation). Positive correlation implies that if one variable moves either up or down, the other variable will move in the same direction. Alternatively, negative correlation implies that if one variable moves in either direction, other one will move in the opposite direction.

**Disclaimer:** The above analysis is based on performance of broader asset classes and is not exhaustive. The performance of indices referred above should not be construed as recommendations, advice to buy, sell or in any manner transact and neither should it be considered as Research Report from Invesco Asset Management (India) Private Limited (IAMI) and/or Invesco Mutual Fund (IMF). It should not be construed as a promise on minimum return and safeguard of capital. The IAMI/IMF is not guaranteeing or forecasting any returns.

## Asset allocation is important for balancing risk and return. Exposure to overseas securities provides an edge

**5 year returns** (From October 31, 2019 to October 31, 2024)

Asset Classes	CAGR return	Volatility	Risk adjusted returns
Domestic Equity (Nifty 200 TRI)	18.5%	18.9%	0.98
Overseas Equity (S&P 500 TR index)	19.2%	16.3%	1.18
Debt (CRISIL 10 year Gilt index)	5.4%	3.3%	1.66
Gold (MCX gold prices)	15.4%	14.7%	1.05
Silver (MCX silver prices)	15.6%	29.3%	0.53
<b>Multi Asset Allocation</b> (60% Domestic Equity+ 30% Debt+ 5% Gold + 5% Silver)	<b>14.9%</b>	<b>11.9%</b>	<b>1.25</b>
<b>Multi Asset Allocation with exposure to overseas equities</b> (45% Domestic Equity+ 15% Overseas Equity+ 30% Debt+ 5% Gold + 5% Silver)	<b>15.0%</b>	<b>10.8%</b>	<b>1.39</b>

**Past performance may or may not be sustained in future.**

Source: Invesco Asset Management (India).

**Note:** Returns are Compounded Annual Growth Rate (CAGR). Volatility/Risk is calculated based on monthly returns and is annualized. Volatility/Risk is represented by standard deviation. Standard deviation is a statistical measure of the range of an investment's performance.

**Disclaimer:** The above simulation explains the return generated over a 5 year period by different asset classes and combination of asset classes. This is for illustration purpose only and should not be construed as a promise on minimum returns and safeguard of capital. Invesco Asset Management (India) Private Limited/Invesco Mutual Fund is not guaranteeing or promising or forecasting any returns.

Presenting  
**Invesco India  
Multi Asset  
Allocation Fund**

(An open ended scheme investing in  
Equity, Debt, Gold ETFs / Silver ETFs)

## **Invesco India Multi Asset Allocation Fund**

### **Benefit of 3 asset classes in single fund**

**Active multi asset allocation strategy** follows **proprietary framework** and aims to navigate all market conditions.

**Monthly optimization of asset classes** in response to changing macro & risk regime which facilitates **quick alignment of portfolio allocations**<sup>1</sup>.

Dynamic allocation between domestic and **overseas equities**<sup>2</sup>.

Framework allows to capture prevalent investment opportunities **without being bound to a static asset allocation approach due to taxation.**

**Risk management is embedded** at every stage of the investment process.

A **simple and convenient way** of getting exposure to multiple asset classes.

**Notes** - <sup>1</sup>The Fund manager will endeavour to allocate the net asset of the scheme to different asset classes based on the results of asset allocation framework at a monthly frequency. However, the fund manager at his sole & absolute discretion reserves the right to not allocate the asset allocation based on the results of asset allocation framework.

<sup>2</sup>The Scheme will invest in Overseas securities / Overseas ETFs during NFO and on an ongoing basis. The Scheme intends to invest USD 25 Million subject to residual regulatory limit in overseas securities during a period of six months from the date of closure of New Fund Offer. The Scheme may make investments in overseas securities (i.e. ADRs, GDRs etc.) upto the available limit at the Fund level. Investments in Overseas ETFs is temporarily suspended and will be allowed once the communication is received from SEBI / AMFI.

## Our multi asset allocation framework

**Exposure to Overseas securities<sup>3</sup> upto 35% of the portfolio**

**Notes:** The Scheme also has an enabling provision to invest upto 10% of net assets to units issued by REITs and InvITs. For more details of asset allocation, please refer Scheme Information Document (SID) of the Scheme.

<sup>3</sup>The Scheme will invest in Overseas securities / Overseas ETFs during NFO and on an ongoing basis. The Scheme intends to invest USD 25 Million subject to residual regulatory limit in overseas securities during a period of six months from the date of closure of New Fund Offer. The Scheme may make investments in overseas securities (i.e. ADRs, GDRs etc.) upto the available limit at the Fund level. Investments in Overseas ETFs is temporarily suspended and will be allowed once the communication is received from SEBI / AMFI.

## At the core of asset allocation framework is macro analysis, supported by market and risk analysis

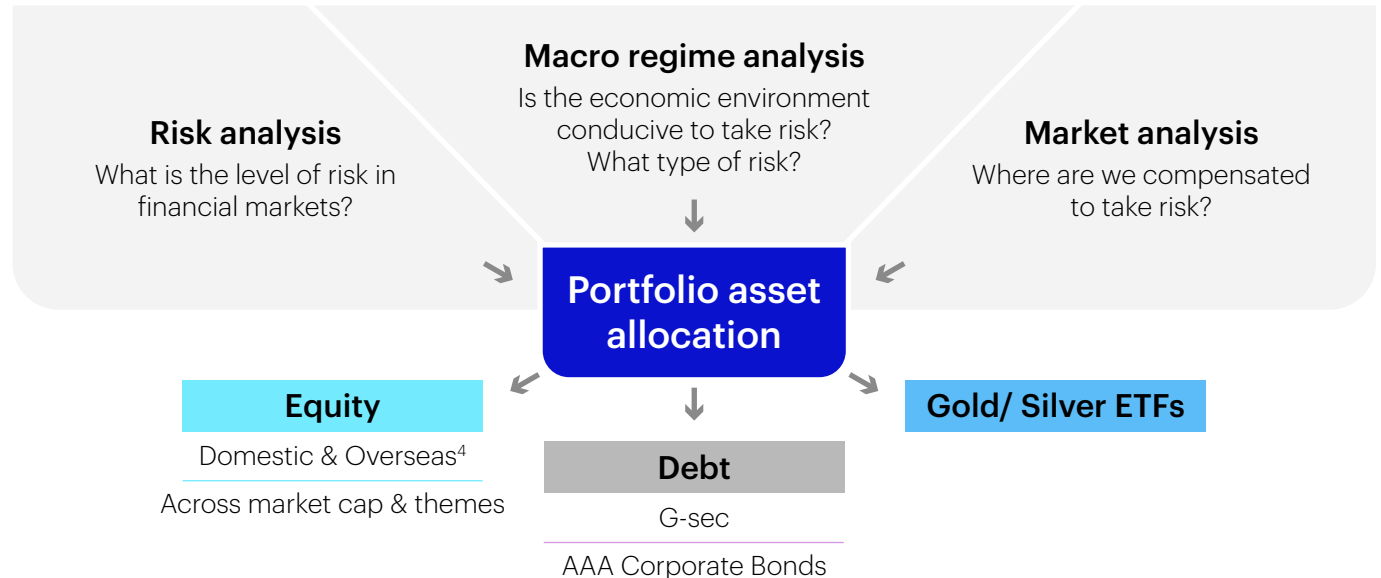

### We believe

**Market returns are cyclical.**

Opportunities and risks change due to changing macro environment.

**Risks** and correlations also vary in different macro regimes.

**Asset allocation** should seek to **capitalize on changing market opportunities**, without taking **undue risk** over a full cycle.

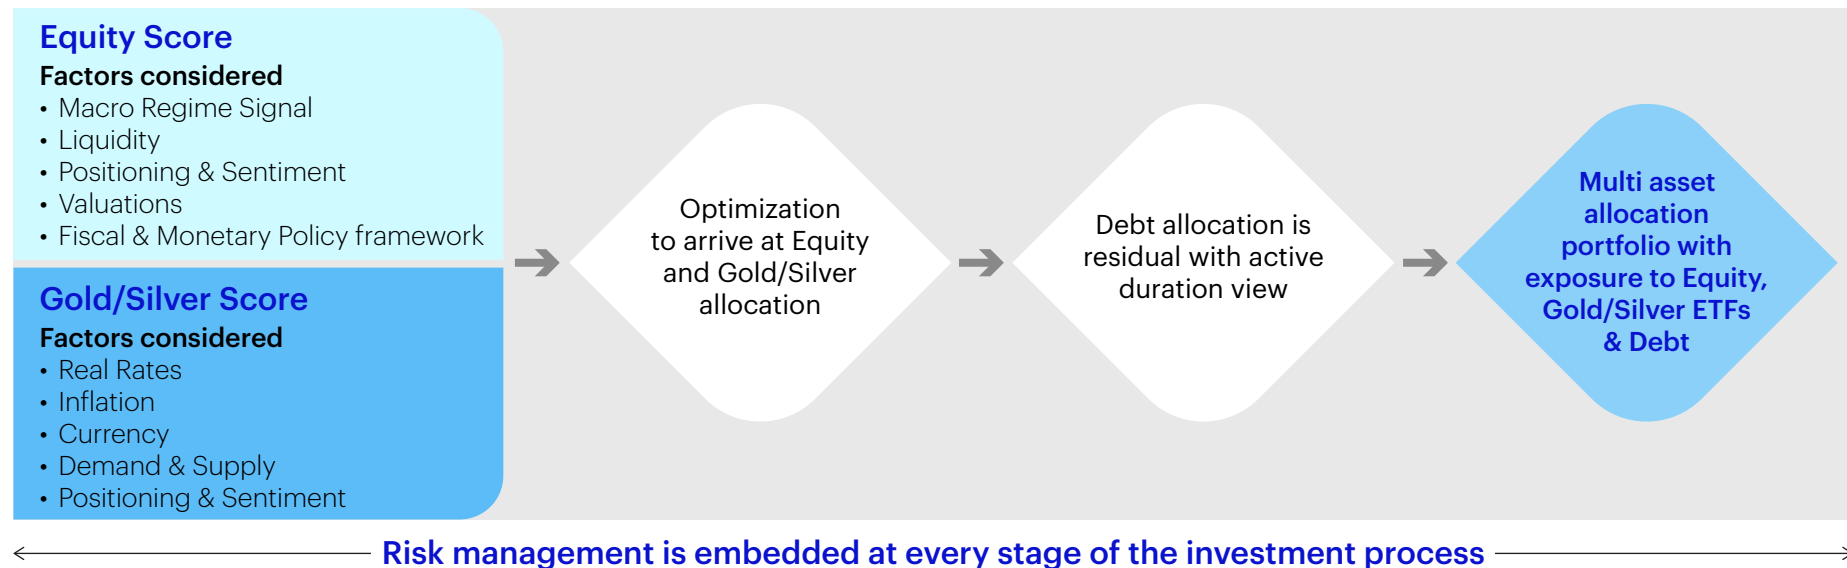

**Notes:** Based on current views and may change from time to time

<sup>4</sup>The Scheme will invest in Overseas securities / Overseas ETFs during NFO and on an ongoing basis. The Scheme intends to invest USD 25 Million subject to residual regulatory limit in overseas securities during a period of six months from the date of closure of New Fund Offer. The Scheme may make investments in overseas securities (i.e. ADRs, GDRs etc.) upto the available limit at the Fund level. Investments in Overseas ETFs is temporarily suspended and will be allowed once the communication is received from SEBI / AMFI.

## Our endeavour is to arrive at optimal allocation to equity and gold/silver with residual exposure to debt<sup>5</sup>

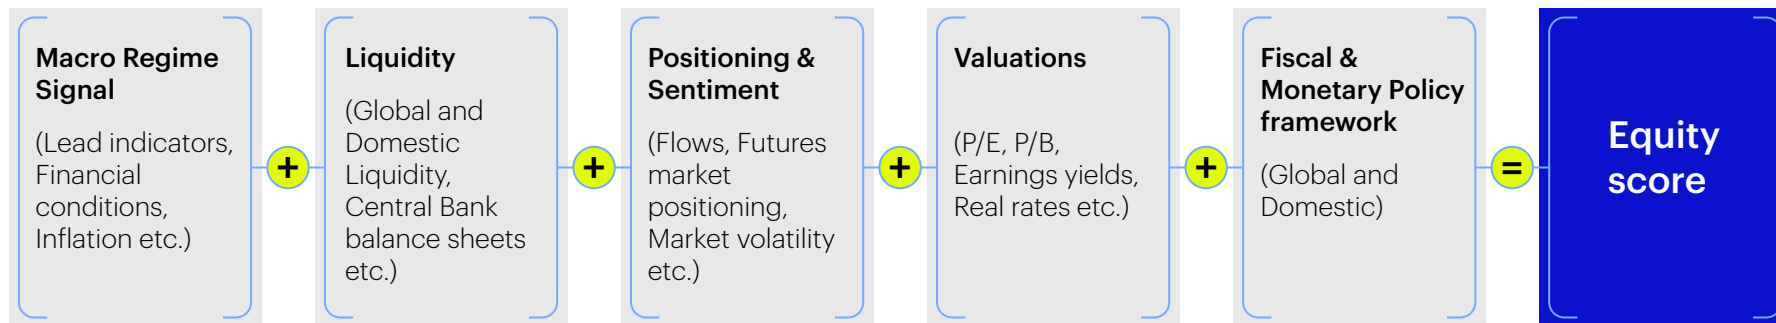

Monthly reallocation ensures active asset allocation

<sup>5</sup>**Note:** The Scheme will invest minimum 10% of net assets to each asset class i.e. Equity, Debt and Gold/Silver (through ETFs). The Fund manager will endeavour to allocate the net asset of the scheme to different asset classes based on the results of asset allocation framework at a monthly frequency. However, the fund manager at his sole & absolute discretion reserves the right to not allocate the asset allocation based on the results of asset allocation framework.

**Disclaimer:** The asset allocation framework is proprietary for Invesco India Multi Asset Allocation Fund. The framework is used to assess the range of asset allocation and final decision on asset allocation is that of the fund manager based on his/her perception of the market at the given point in time. The framework is used to explain allocation of assets between Equity, Debt and Gold/Silver ETFs for Invesco India Multi Asset Allocation Fund and should not be construed as any asset allocation recommendation or to build any portfolio strategy from Invesco Asset Management (India) Private Limited and / or Invesco Mutual Fund.

## Factors guiding Equity allocation

Each factor is assigned a weightage with **highest weightage given to Macro Regime Signal.**

Allocation score is assigned for each of the 5 parameters and weighted average Equity score is calculated.

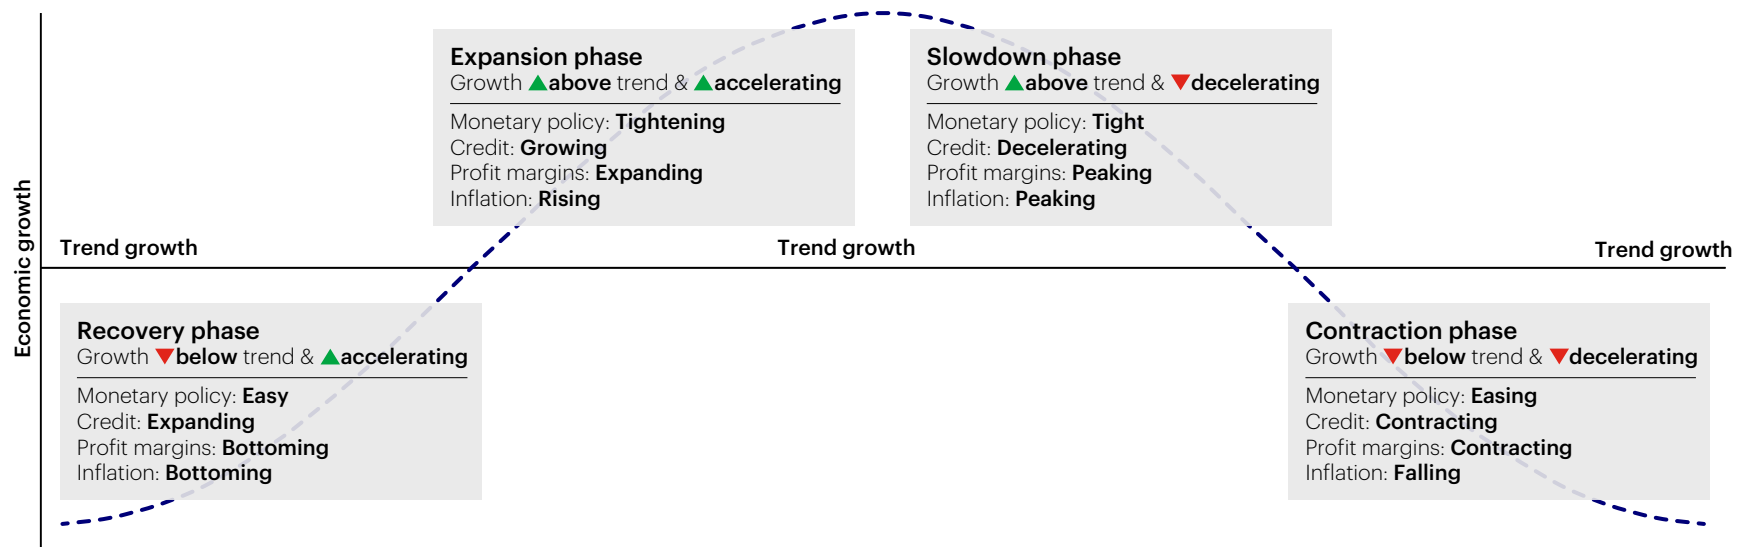

P/E: Price to Earnings, P/B: Price to Book

**Disclaimer:** The asset allocation framework is proprietary for Invesco India Multi Asset Allocation Fund. The framework is used to assess the range of asset allocation and final decision on asset allocation is that of the fund manager based on his/her perception of the market at the given point in time. The framework is used to explain allocation of assets between Equity, Debt and Gold/Silver ETFs for Invesco India Multi Asset Allocation Fund and should not be construed as any asset allocation recommendation or to build any portfolio strategy from Invesco Asset Management (India) Private Limited and / or Invesco Mutual Fund.

## Macro Regime Analysis: A key determinant for Equity allocation

Helps to gauge the phase of global macro cycle and relative strength of domestic vs. overseas economy

Phases based on the expected level and change in Economic growth across domestic and global economies

**Disclaimer:** The Macro Regime parameter mentioned above is one of the parameters for determining the equity allocation of the portfolio. The same is not an exhaustive list. There are many other parameters which the asset allocation framework would consider to determine the asset allocation to equity.

# Combining elements of macro regime analysis with factors such as liquidity, valuation, positioning and policy help to arrive at Equity allocation

## Input: A wide range of data

**Business Spending** e.g. PMI, corporate margins, capex

**Consumption** e.g. Retail sales, auto sales, airline bookings

**Manufacturing and Construction Activity** e.g. New orders, inventory, building permits

**Labour market** e.g. Payrolls, jobless claims, unemployment rate

**Monetary and Financial Conditions** e.g. Credit growth, M2 growth, credit spreads

**Asset performance** e.g. Cyclical vs. Defensives, Copper/Gold ratio, Growth vs. Value

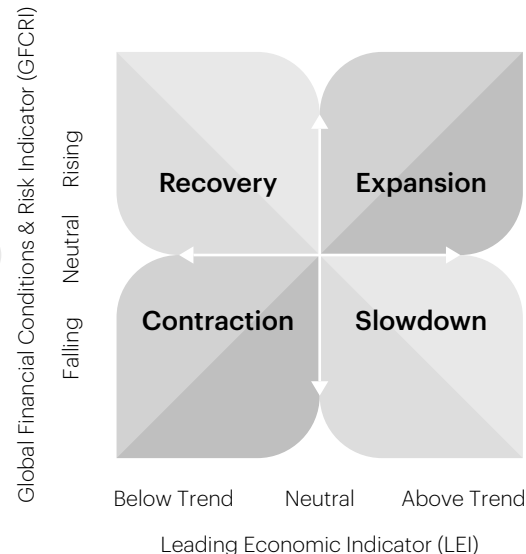

## Integrating LEI and GFCRI

Leading Economic Indicator (LEI) indicates whether growth is likely to be above, below or at trend

Global Financial Conditions & Risk Indicator (GFCRI) helps to determine market growth expectations & risk premia

## Output: Expected macro regimes

## Factors guiding Gold/Silver allocation

Allocation score is assigned for each of the 5 parameters and weighted average Gold/Silver score is calculated.

## Monthly reallocation - Key to our investment approach

Monthly returns of various asset classes are skewed thus providing an opportunity to benefit from tactical allocation

% of observations with returns (in INR terms)  $\geq +5\%$  &  $\leq -5\%$

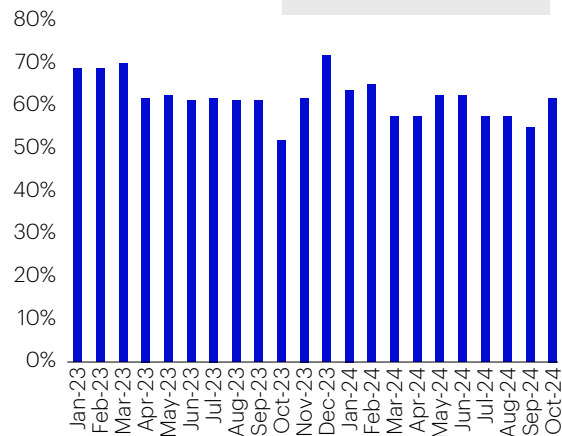

**Past performance may or may not be sustained in future.**

**Disclaimer:** The above is a simulation taking into consideration the monthly returns of the respective indices from January 2004 till October 2024 and shows the % of times the returns were greater than equal to 5% or less than equal to -5% in the period under consideration. The same is for illustration purpose only and should not be construed as any asset allocation recommendation or to build any portfolio strategy from Invesco Asset Management (India) Private Limited and / or Invesco Mutual Fund.

## Let's see how asset allocation has moved based on our framework scores

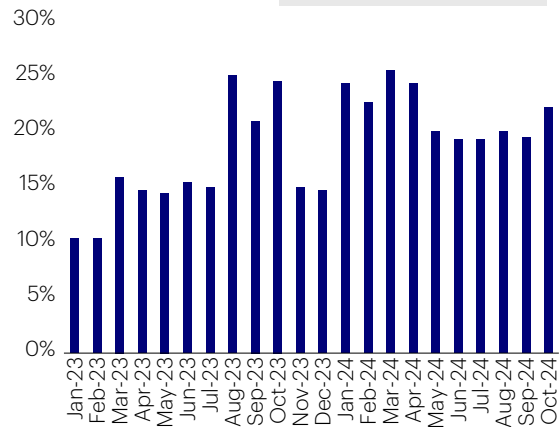

### Equity allocation (includes domestic & overseas<sup>6</sup>)

Maximum	73.8%
Average	63.7%
Minimum	53.4%

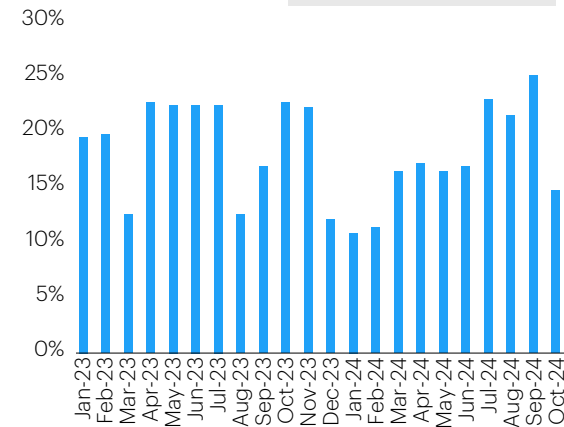

### Gold/Silver allocation

Maximum	25.4%
Average	18.7%
Minimum	10.2%

### Debt allocation

Maximum	24.2%
Average	17.6%
Minimum	10.4%

<sup>6</sup>**Note:** The Scheme will invest in Overseas securities / Overseas ETFs during NFO and on an ongoing basis. The Scheme intends to invest USD 25 Million subject to residual regulatory limit in overseas securities during a period of six months from the date of closure of New Fund Offer. The Scheme may make investments in overseas securities (i.e. ADRs, GDRs etc.) upto the available limit at the Fund level. Investments in Overseas ETFs is temporarily suspended and will be allowed once the communication is received from SEBI / AMFI.

**Disclaimer:** The above is a simulation to show what would have been the allocation to different asset classes based on the results of proprietary asset allocation framework which takes into account various parameters / variables. The same is for illustration purpose only and should not be construed as any asset allocation recommendation or to build any portfolio strategy from Invesco Asset Management (India) Private Limited and / or Invesco Mutual Fund.

## Our investment preferences within asset classes

Focus on asset allocation mix to deliver better risk-reward outcome

### Equity

Investment across Largecap stocks basis our proprietary equity investment process

Exposure to Midcaps through Index Funds/ETFs

Investment in overseas securities<sup>7</sup> subject to limits available

### Debt

Investments focusing on high credit quality and liquidity

Investments predominantly in Government Securities & AAA Corporate Bonds

Portfolio duration managed dynamically in line with macro regime and demand-supply dynamics

### Gold/ Silver ETFs

Investments based on attractiveness of Gold and/or Silver

<sup>7</sup>Note: The Scheme will invest in Overseas securities / Overseas ETFs during NFO and on an ongoing basis. The Scheme intends to invest USD 25 Million subject to residual regulatory limit in overseas securities during a period of six months from the date of closure of New Fund Offer. The Scheme may make investments in overseas securities (i.e. ADRs, GDRs etc.) upto the available limit at the Fund level. Investments in Overseas ETFs is temporarily suspended and will be allowed once the communication is received from SEBI / AMFI.

## Portfolio asset allocation

Asset Allocation as per SID (% of net assets)	
Equity & Equity Related Instruments	10%-80%
Debt and Money Market Instruments	10%-80%
Gold/ Silver ETFs	10%-50%

Tentative Asset Allocation Range (% of net assets)	
Equity & Equity Related Instruments	35%-75%
i. Domestic Equity	35%-65%
ii. Overseas Equity <sup>8</sup>	Upto 35%
Debt and Money Market Instruments	10%-55%
Gold/ Silver ETFs	10%-30%

<sup>8</sup>**Note:** The Scheme will invest in Overseas securities / Overseas ETFs during NFO and on an ongoing basis. The Scheme intends to invest USD 25 Million subject to residual regulatory limit in overseas securities during a period of six months from the date of closure of New Fund Offer. The Scheme may make investments in overseas securities (i.e. ADRs, GDRs etc.) upto the available limit at the Fund level. Investments in Overseas ETFs is temporarily suspended and will be allowed once the communication is received from SEBI / AMFI.

**Disclaimer:** The range of asset allocation given in table 2 is based on back testing of our proprietary asset allocation framework taking into account various parameters / variables and is subject to change from time to time basis the results generated from proprietary asset allocation framework on a periodic basis. The range of asset allocation in table should not be construed as indicative portfolio in any manner whatsoever. The actual allocation to various asset classes may vary from the range given in table 2 subject to overall asset allocation pattern given in SID of the Scheme. The table 2 is for illustration purpose only and should not be construed as recommendation of any asset allocation range and /or to build any portfolio strategy from Invesco Asset Management (India) Private Limited and / or Invesco Mutual Fund.

## Access to multiple asset classes through a single fund in a tax efficient manner

Scheme	Type of Scheme	Holding Period	Short Term Capital Gains Tax (STCG)	Long Term Capital Gains Tax (LTCG)
Invesco India Multi Asset Allocation Fund	Hybrid Mutual Fund^ (> 35% and < 65% Indian Equity)	Upto 24 months – STCG >24 months – LTCG	Investor's Income Tax Slab Rate	12.50%

^A scheme that is neither an equity-oriented mutual fund nor a specified mutual fund, as defined under the Income Tax Act, 1961.

**Note:** The above rates excludes surcharge and cess. No indexation benefit is available on redemption of units of the above scheme.
